PROFESSIONAL SUMMARY

Detail-oriented Full-Stack Web Developer with expertise in React and Django ecosystems. Skilled in building responsive, modern web applications with clean, efficient code. Demonstrates strong problem-solving abilities and adapts quickly to new technologies. Passionate about creating user-centered digital experiences with both technical excellence and creative innovation.

CORE COMPETENCIES

- Full-Stack Development
- Modern JavaScript Frameworks
- Responsive Web Design

- Python Web Development

- Mobile App Development

- API Implementation & Integration

- Version Control/Git Workflow

- Cross-Platform Compatibility

TECHNICAL SKILLS

- **Programming Languages:** JavaScript (ES6+), Python, Kotlin, HTML5, CSS3

- **Frontend Development:** React.js, Vite, Vanilla CSS, Responsive Design

- ◆ **Backend Development:** Django, REST APIs, Express.js, Node.js
- ◆ **Development Tools:** Git, GitHub, Postman, Vercel, VS Code
- ◆ **Additional Tools:** Cisco Packet Tracer, Android Studio
- ◆ **Methodologies:** Agile Development, Test-Driven Development

---

PROJECT EXPERIENCE

AI Solutions | Web Application

- Architected and developed a full-service AI solutions platform offering multiple service categories
- Implemented responsive UI components with React for intuitive user experience
- Built robust backend services with Django REST framework enabling secure data management
- Integrated authentication system and user profile management features
- **Tech Stack:** Django, React, RESTful APIs, Python, JavaScript

BWES | Job Portal Platform

- Engineered a comprehensive job marketplace connecting employers and job seekers
- Developed search functionality with filtering options to match employers with suitable candidates
- Implemented secure authentication and authorization workflows
- Created notification system for application updates and new job postings
- **Tech Stack:** Express.js, React, Node.js, MongoDB

MealMate | Android Application

- Designed and developed a mobile application for meal planning and grocery management
- Implemented SMS functionality for sharing grocery lists and delegating tasks
- Created intuitive UI for recipe browsing and meal scheduling
- **Tech Stack:** Kotlin, Android Studio, Room database

EDUCATION

BSc (Hons) in Computer Systems Engineering

International School of Management and Technology (ISMT), University of Sunderland

November 2022 - September 2025 (Expected)

Relevant Coursework: Data Structures & Algorithms, Database Management Systems, Web Technologies, Software Engineering, Computer Networks

Higher Secondary Education (+2)

Janata Secondary School, Tansen Palpa

Science Stream with Computer Science

School Leaving Certificate (SLC)

Shambhu Secondary School

Graduated with Distinction

PROFESSIONAL DEVELOPMENT

- Continuous self-education through online courses and tutorials in modern web development
- Focus on independent learning and application of new technologies
- Personal projects to strengthen technical skills and problem-solving abilities

---

LANGUAGES

- **Nepali:** Native Proficiency
- **English:** Professional Fluency (Written and Verbal)

PROFESSIONAL INTERESTS

- Progressive Web Applications (PWAs)
- Artificial Intelligence Integration in Web Applications
- UI/UX Design Principles
- Cloud Computing Solutions
- Modern Software Architecture

CAREER OBJECTIVE

Currently seeking remote or Nepal-based paid internship opportunities in full-stack development. Eager to contribute to innovative projects while further developing expertise in modern web technologies and

best practices.
